DISTRICT NUMBERS

DISTRICTS	2016	2017
B	122	33
D	91	58
H	147	90
I	33	34
K	31	55

As you can see the numbers have dropped from 2016 to 2017. There are a couple of factors to consider . 2017 was rough with the amount of disaster the City had along with the family's relocating due to the flooding. We foresee the numbers going back up some once people return to their homes and have things to dispose of. The City picked up a lot of property that might have been illegally dumped but was destroyed during Harvey.

Demographics

- Average Age: 50 years old
