(b) No permittee shall operate or cause or suffer or allow to be operated a taxicab in the city unless and until a certification decal number has been assigned by the director at the time the permit is issued under this article. The number shall remain in full force and effect for each permit so long as the permit remains valid. The number shall be displayed on the taxicab in four separate and plainly visible locations as follows: on the right of the trunk lid when viewed from the rear of the taxicab; on the left of the hood when viewed from the front of the taxicab; and one on each side of the taxicab immediately below the handles of the rear doors. If a taxicab has only one rear door, then the number for the side where there is no rear door shall be placed in an alternative location designated by the director. The number, in each instance, shall be not less than three inches high and not less than five-sixteenths of one inch in width.

Sec. 46-22. Vehicle color scheme.

(a) No permittee or licensee shall drive or cause to be driven any taxicab in the city until the permittee has filed with the director, for approval, the color scheme that he proposes to use under his ownership or radio service. In approving or disapproving the color scheme submitted, the director shall consider:

- (1) The color scheme presently in use by the permittee, if any;
- (2) The color schemes of other permittees; and
- (3) Which permittee first used or requested approval of the color scheme.

If the director finds that the permittee is entitled to the use of the requested color scheme because of first or prior use and that it does not deceptively resemble the approved color scheme of another permittee, he shall approve its use by the permittee.

(b) If the color scheme is approved, the permittee shall, within 15 days, deliver to the director a color photograph, of a size and kind to be approved by the director, of a taxicab of his color scheme, and he shall not change the color scheme without approval of the director.

Sec. 46-23. Certification decals.

It shall further be unlawful for any person to drive a taxicab without the certification decal being so attached.

When the taximeter is in the recording position, the stool light shall be off, and when the taximeter is not recording, the stool light shall be on and shall illuminate a "vacant" sign contained thereon. Additionally, permittees and licensees shall be authorized to display and illuminate either the taxicab permittee name or permit number on the stool light when the taximeter is not recording.

Sec. 46-25. Passenger's right of selection.

Every person shall be allowed to select a taxicab of his choice at any place in the city.

(b) The director of aviation shall establish one or more locations at or near the various terminal buildings at IAH as taxicab arrival and departure loading zones for the loading and discharge of passengers and baggage by taxicabs. It shall be unlawful for any licensee to load or discharge passengers or baggage at any location within the airline terminal areas of IAH other than in a zone so established.

(c) The director of aviation shall establish taxicab standing lines to service the departure loading zones designated under subsection (b) above. It shall be unlawful for any licensee to cause his vehicle to stand upon any area of IAH other than in a designated standing line. It is a defense to prosecution under this subsection that the operator has lawfully stopped his vehicle in order to comply with a traffic control device or that the operator is actually and lawfully engaged in the loading or unloading of passengers or baggage.

(d) Except where the passenger may request the service of a particular taxicab, departing passengers at IAH terminals will be assigned to taxicabs waiting in the standing lines by starters who have been designated by the director of aviation to operate the various departure zones and standing lines. Taxicabs will be assigned from the standing lines on a first-in-line-first-to depart basis, provided that the director of aviation shall administratively provide by rule for the priority reassignment of any taxicab operating from a standing line that receives a short trip. For purposes of this provision a short trip means a trip within an area immediately adjacent to IAH as defined on a map promulgated for that purpose by the director of aviation.

(e) A licensee carrying a passenger or passengers from IAH shall pay to the city the airport use fee established from time to time by division 3 of article II of chapter 9 of this Code. ~~The licensee shall deposit the fee in the manner prescribed by the director of aviation, and the fee may be added by the licensee to metered fares and flat rate fares for trips originating from IAH when the average price per gallon of regular unleaded gasoline exceeds \$2.00, provided that the amount of the fee is posted on the taxicab's rate card.~~ Where passengers are being carried to two or more destinations, the airport use fee shall be prorated among them on a per destination basis. It shall be unlawful for any licensee to depart from the IAH with a passenger without having deposited the required fee.

Sec. 46-27. Operation at William P. Hobby Airport.

(a) The director of the department of aviation is hereby authorized to designate one or more locations on the airport adjacent to the airline terminal building at the William P. Hobby Airport (HOU) as standing and loading zones for the loading and discharge of passengers and baggage by taxicabs. It shall be unlawful for a licensee to load or discharge passengers or baggage at any other location within the airline terminal building area of the airport.

(b) A licensee carrying a passenger or passengers from the airline terminal building at the HOU shall pay to the city the airport use fee established from time to time by division 3 of article II of chapter 9 of this Code. ~~The licensee shall deposit the fee in the manner prescribed by the director of aviation, and the fee may be added by the licensee to metered fares and flat rate fares for trips originating from HOU when the average price per gallon of regular unleaded gasoline exceeds \$2.00, provided that the amount of the fee is posted on the taxicab's rate card.~~ Where passengers are being carried to two or more destinations, the airport use fee shall be prorated among them on a per destination basis. It shall be unlawful for any licensee to depart from the HOU with a passenger without having deposited the required fee.

Sec. 46-28. Reserved.

Sec. 46-29. Carrying additional passengers.

Any passenger who engages the services of a taxicab shall have the exclusive right to the passenger compartment of the taxicab, and it shall be unlawful for a licensee to carry additional passengers unless specific permission is obtained from the passenger who originally engaged the taxicab.

Sec. 46-30. Taximeter.

(a) No licensee or permittee shall drive or cause or suffer or allow to be driven a taxicab in the city, unless it is equipped with a properly functioning taximeter. ~~Except for trips entirely within the central business district for which the alternate flat rate established by section 46-31(a)(9) of this Code is being charged,~~ No licensee shall carry a passenger, whether for hire or not, unless the taximeter is in the recording position. Provided, however, it shall be an affirmative defense to prosecution under this subsection that the only passenger in the taxicab at the time the taximeter was not in recording position was a person riding for training purposes only, and:

- (1) The passenger had a valid license issued by the city at the time he was ~~so~~ riding as a passenger;
- (2) The passenger had not driven a taxicab for 30 days or more within the city prior to the date the defendant was charged for violation of this subsection; and
- (3) At the time the person was riding as a passenger, there was a sign indicating that a passenger was riding for purposes of training as a licensee. The sign must be located so that it would be visible to any person who might ride in the vehicle as a passenger for hire.

(b) Except as otherwise provided in this article, all charges and collections for hire shall be based upon the taximeter reading. The dial showing the fare shall be in full

view and readily visible and readable by the passenger or passengers at all times taxi service is being rendered.

[NOTE: The City of Houston is considering all legal and practical implications concerning the authorization of certain vehicle for hire platforms to charge a deposit or scheduling fee for pre-arranged vehicle for hire transportation services.]

(c) The taximeter shall be inspected and sealed by the director when the taxicab is placed into service, during vehicle inspections conducted under this article and before the taxicab is placed back into service following any repair, modification or adjustment to the taximeter.

(d) No permittee shall drive or cause or suffer or allow to be driven and no licensee shall drive any taxicab on which the seal installed by the director has been removed, broken or tampered with. No permittee shall drive or cause or suffer or allow to be driven and no licensee shall drive any taxicab on which any modification has been made to the taximeter or to any mechanical or electrical parts of the taxicab activating the taximeter that cause rates other than those authorized in this division to be recorded and shown on the taximeter.

(e) The director shall promulgate regulations authorizing the temporary use of a permittee-installed substitute seal in lieu of a city-installed seal if a taximeter is installed repaired, modified, or adjusted during the period commencing at noon on a Friday or on the day preceding a city-observed holiday and extending until 8:00 a.m. on the next day that is not a Saturday, Sunday, or city-observed holiday. Use of a temporary seal during the aforesaid period in a manner authorized by the regulations is an affirmative defense to prosecution under this section, provided that the taximeter is functioning in accordance with all requirements of this division.

(a) All taxicab permittees and licensees shall comply with and abide by the rates established in this section:

Automatic adjustments to the rates shall be calculated by applying the percentage change in the TCI to the current six mile fare. The new rates shall be effective February 1 of the following year. Written notice of the automatically adjusted rates shall be provided by regular mail to taxi permittees not later than the 30th day before the rates go into effect.

(c) In the event two or more taxicab passengers are going to the same destination, the licensee shall collect only one fare as recorded on the taximeter. If the passengers are going to different destinations, the licensee shall clear his taximeter at the first destination and charge the first passenger the amount recorded on the taximeter, and then proceed to the next destination as though it were a completely new trip. hearing examiner in which all appellants may jointly participate. The hearing examiner's decision shall be rendered on or before October 15 and shall be final.

(c) Following the computations under subsection (a) and resolution of any appeals therefrom under subsection (b), a mathematical determination shall be made whether any taxicab permits are to be issued. If the taxicab permit adjustment factor is a negative percentage or is zero, then no permits shall be issued. If the taxicab permit adjustment factor is a positive number, then the taxicab permit adjustment factor shall be multiplied by the permit computation year base permit number, and the result is the available permit number.

Sec. 46-64. Distribution of available permits.

(a) For purposes of distribution, the available permit number shall be divided into two categories:

- (1) A number of permits equal to five percent of the available permits, rounded to the nearest whole number (with a fraction of $\frac{1}{2}$ rounded up), shall be reserved for new entrant applicants.
- (2) Based upon the computation provided in item (1) above, the balance of the available permit number shall be reserved for other applicants.

(b) On or before November 1 of each permit computation year, the director shall cause the computation of the available permit number to be published one time in a newspaper of general circulation.

(c) If permits are to be issued, then the publication shall also include the reservation numbers computed under subsection (a), the deadline for filing of applications, and an explanation of how to obtain filing information. If during a permit computation year, the director determines that the number of wheelchair accessible taxicabs is less than two percent of the entire taxicab fleet, the director shall cause the appropriate number of available permits listed in items (1) and (2) of subsection (a) to be designated for wheelchair accessible vehicles. Additionally, the director shall mail the information regarding permits available and filing procedures to all permittees and licensees at their last known addresses.

Sec. 46-65. Applications.

(a) Applications for permits may be filed on or before December 1 of each permit computation year in which permits are determined to be available pursuant to section 46-63 of this Code. Each applicant shall utilize forms promulgated by the director and shall submit any information requested in accordance with instructions that shall be promulgated by the director. Without limitation of other information that the director may require in order to determine compliance with this Code and other applicable laws, the applicant shall set forth and provide the following information, which

shall be sworn before a notary public or conform to minimum state law requirements for unsworn declarations:

- (1) The applicant's name, mailing address (and street address if different), and telephone number.
- (2) Evidence of the type of business enterprise that the applicant utilizes, e.g. proprietorship, partnership, or corporation, together with the identity and address of each principal.
- (3) Criminal history information for every principal as required by the director to determine compliance with section 1-10 of this Code.
- (4) Evidence that the applicant has a place of business within the metropolitan area from which the applicant's taxicab business is or will be operated and that use of the proposed location is in compliance with any applicable deed restrictions.
- (5) A statement indicating the number of permits requested by a new entrant applicant or an other applicant.
- (6) A statement indicating whether the applicant is a new entrant applicant or an other applicant.
- (7) For new entrant applicants, evidence that the applicant's operator has within the preceding period of ten years had at least five years active and practical taxicab business experience, with at least two of those years in the city.
- (8) For other applicants, the identity of the permittee as defined in section 46-16 of this Code on whose behalf the application is filed.
- (9) Evidence that the operator is either a United States citizen or an alien legally residing in the United States with the legal right to engage in employment in the United States.

Each application shall be accompanied by a filing fee. The filing fee shall be an amount established by city council by motion upon recommendation of the director of administration and regulatory affairs. The fee approved under this provision shall be included in the city fee schedule.

(b) Each applicant, whether a new entrant applicant or other applicant, shall be limited to the consideration of one application per permit computation year. An application filed by a new entrant applicant shall be considered a duplication if any principal is also named in another application. An application filed by an other applicant shall be considered to be a duplicate if it identifies the same permittee as any previously filed application. In case of multiple applications, the first one filed shall be considered,

and all others shall be returned unless the applicant elects in writing to withdraw the earlier-filed application.

(c) The director shall review applications received and on or before March 1 of the permit distribution year advise each applicant whether the applicant has been determined to be qualified or unqualified. An applicant is considered qualified if each of the following criteria is met:

- (1) The application was filed in completed form with no material inaccuracies or omissions, provided that if the application as originally filed was substantially complete and in proper form, the director shall allow an applicant a reasonable opportunity to correct any minor inaccuracies or omissions if that can be accomplished without delaying the processing of applications.
- (2) Neither the applicant nor any other business entity with which any of its principals is or was then associated has transferred one or more permits to another person within the four year period preceding the date of filing of the application, exclusive of transfers made for the purpose of settlement of estates and divorce proceedings, or exclusive of transfers to effect a change in the form of entity when the principal owner in the original company remains a principal in the subsequent entity, e.g., sole proprietorship or partnership to a corporation. This item applies only to the transferor and not the transferee.
- (3) The applicant and its principals are in compliance with the criminal history provisions of section 1-10 of this Code.
- (4) The applicant's operator has the experience required in item (a)(7) above.
- (5) The applicant's operator is a citizen or resident alien with work privileges as provided in item (a)(9) above.
- (6) The applicant has a place of business within the metropolitan area as provided in item (a)(4) above.
- (7) The applicant is in compliance with any other applicable requirement of this Code and other laws.

(d) Applicants who are determined to be unqualified shall also be notified of the grounds asserted for that determination and of their right to a hearing upon the determination to be conducted by an independent hearing examiner designated by the director. If the determination is based in whole or in part upon section 1-10 of this Code, then the notice and hearing procedures shall also include any requirements to comply with section 1-9 of this Code and applicable state laws. The determination of the hearing examiner with respect to the application shall be final, unless otherwise provided by law.

(e) Following the completion of the appeal hearings, if any, as provided in subsection (e), the director shall generate a list of qualified new entrant applicants and a list of qualified other applicants.

Sec. 46-66. Drawing; distribution.

(a) Based upon the list generated for new entrant applicants in section 46-65(e) of this Code and the number of permits reserved for new entrant applicants in section 46-64(a) of this Code, the director shall conduct or cause to be conducted a public drawing to determine the granting of permits. All qualified new entrant applicants shall be invited to attend the drawing. The drawing shall be conducted in such a manner as to ensure distribution of the permits by random chance. Each new entrant applicant may receive no more than one permit.

(b) For other applicants, an equal percentage of permits shall be granted to each qualified applicant based on the total number of permits reserved for other applicants in section 46-64(a) of this Code and the total number of permits requested by qualified other applicants. For example, if a total number of 100 permits is reserved for other applicants and the qualified other applicants have cumulatively requested a total number of 200 permits, then each qualified other applicant shall receive 50 percent of the number of permits he requested. Fractional permits may not be issued. The director may adjust percentages as required equitably to dispose of fractions or conduct a public drawing in accordance with regulations promulgated for that purpose to resolve any fractional imbalance.

(c) Within five days following the completion of the drawing and distribution process, the director shall notify qualified applicants of the number of permits granted to each by mailing a notice to each qualified applicant at his last known address.

(d) In permit years in which permits are issued, a qualified other applicant who meets the criteria set forth below may petition the city council requesting that he be granted permits or additional permits in an amount not exceeding the difference between the number of permits the applicant requested in his application and the number of permits that the applicant was granted, if any, under subsection (b) above. Petitions shall be filed with the director within 30 days following the date of mailing of the notices under subsection (c) above, upon forms promulgated by the director. The director shall forward to city council each timely filed petition. In order to be considered for permits hereunder, a petitioner shall be required to demonstrate through written evidence submitted with the petition that is independently verifiable by the director that each of the following criteria has been satisfied:

- (1) The petitioner has had an overall vehicle utilization rate of 90 percent or more during the six month period preceding the date of filing of the petition as determined in accordance with computation regulations established by the director. Acceptable evidence shall include lease documents or employer tax records; and

- (2) The petitioner's taxicab business has sustained growth from sources other than trips departing from the city airports in a percentage at least equal to the taxicab permit adjustment factor. Acceptable evidence shall be in the form of growth in radio dispatch trips, growth in trips from contracts, growth in reservation trips (commonly known as personal trips), or any combination thereof. Percentage growth shall be measured over the three year period preceding the filing date of the petition; provided, however, that during the 2001 permit issuance process, growth shall be measured from February 2000 to the date of filing of the petition, and a corresponding adjustment shall be made to the taxicab permit adjustment factor for purposes of petitions under this subsection (d).

(e) The total number of additional permits granted to all petitioners under this subsection (d) may not exceed 25 percent of the available permit number. The purposes of granting additional permits, if any, by petition under this subsection (d) are (i) to foster enhanced competition within the taxicab industry, (ii) to increase the level and quality of taxicab service available to the public for other than city airport departure trips, and (iii) to promote more efficient utilization of taxicabs, which purposes should enhance the public satisfaction and generate operating cost and fare savings. Within 60 days following the last day for filing of petitions, the director shall submit the petitions to the city council for consideration with a report setting forth and including:

- (1) The director's determination whether each of the petitioners has met each of the consideration criteria set forth above and is therefore eligible or ineligible to be considered hereunder; and
- (2) If two or more petitioners have met each of the consideration criteria, the relative ranking of those petitioners with respect to their utilization rates and sustained growth rates for service other than trips departing from city airports.

The director shall forward the petitions and report to city council accompanied by any relevant portions of the application processing record. City council shall consider the matter based upon the petition, report, and record in the same manner as an appeal under City Council Rule 12. The decision of city council shall be based upon the consideration criteria and purposes set forth above, and the city council's decision whether to grant any additional permits and, if so, the distribution thereof shall be final.

Sec. 46-67. Insurance as prerequisite.

(a) Before any taxicab permit shall be issued to any person, or before renewal of any permit shall be granted, the applicant shall file an insurance policy evidencing insurance coverage complying with the requirements contained in subsection (b) below or give proof that he has qualified as a self-insurer, as the term is defined in the Texas Motor Vehicle Safety Responsibility Act as now in force or hereafter amended.

(b) The insurance required in subsection (a) shall be in the form of commercial auto liability coverage in no less than the minimum coverage amounts specified in the Texas Motor Vehicle Safety Responsibility Act issued by a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies. Additionally, the insurance policy must include an endorsement requiring 30 days' written notice of termination or cancellation to the director. In the event that a policy terminates or is cancelled without replacement, then each permit to which it pertains shall be suspended, and those taxicabs may not be operated. If a proper replacement policy is not provided to the director on or before the 10th business day after the date of termination or cancellation of the policy, the permit shall automatically terminate. Proof of insurance coverage shall be maintained at all times and shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.

Sec. 46-68. Fee.

(a) The annual fee for a permit under this division is stated for this provision in the city fee schedule and is payable for each taxicab. In the event a permit is issued for a period of time less than eight months, the permit fee shall be prorated according to the number of months remaining in the permit period, payable at the rate stated for this provision in the city fee schedule for each month or fraction of a month, not to exceed the full amount of the annual fee. The reissuance of any certification decal that is lost, mutilated or otherwise rendered unusable shall be provided only upon reinspection of the taxicab.

The annual permit fee shall be paid in advance to the department of administration and regulatory affairs in three installments on or before May 1st, June 1st, and June 15th of each calendar year in amounts prescribed in the city fee schedule.

(b) Within 90 days following the expiration of any calendar year a permittee may apply to the director for a refund of a portion of his permit fees if the permit fees paid for the previous calendar year exceed two percent of the permittee's gross receipts. The refund application shall be made on a form promulgated by the director. The application shall state the amount of refund requested and shall be accompanied by copies of gross receipts records maintained by the permittee in a form approved by the director. The application as well as any supplementary material required by the director must be accompanied by an affidavit signed and sworn to by or on behalf of the applicant. The applicant shall state that the application or supplement and all attachments thereto are correct and complete and do not omit any material item, and that the applicant either: (i) has personal knowledge of each matter affirmed, or (ii) has conducted a thorough investigation into each matter affirmed. Upon receipt of a complete and timely application, together with any required supplements, and after examining and investigating the refund request, the director shall either:

- (1) Refund or credit to the account of the permittee the amount by which the total permit fees paid for the previous calendar year exceed two percent of the permittee's total gross receipts for the previous calendar year; or
- (2) Deny the refund.

Sec. 46-69. Issuance.

Taxicab permits shall be issued by the director upon determination that the applicant is entitled to receive a taxicab permit and has otherwise complied with all of the requirements of this article, and upon payment by the applicant of the fee prescribed by section 46-68 of this Code.

Sec. 46-70. Term; renewal.

A permit issued under this division shall be valid for a one-year permit term commencing on May 1 and extending through the succeeding April 30th. A permit may be renewed each year by payment of the annual fee as provided in section 46-68 of this Code.

Sec. 46-71. Changes in principals after issuance.

Any change in principals of a permittee shall be subject to an application to be filed in the same manner as under section 46-65 of this Code for a permit application and shall only be authorized to the extent that the applicant is qualified thereunder, provided that the director may utilize modified application forms and procedures that do not require the provision of information or data that is applicable by its nature to the issuance of a new permit but not applicable to the decision process for a change in principal. The director shall authorize the permittee to continue to operate on a temporary basis pending the determination if, based upon an initial review of the application, it appears that the applicant will be determined to be qualified. If the application is denied, the permittee may not continue to utilize the permit(s), and the permit(s) shall terminate on the 30th day following notice of denial and any appeal therefrom, unless the permittee divests itself of the new principal or otherwise returns to compliance with this article.

Sec. 46-72. Transfer of permits.

(a) When used in this section, the following words and terms shall have the meanings ascribed to them in this subsection:

New permit means any permit that has been issued for a period of less than five years, as computed from the date of its initial issuance by the city.

Old permit means any permit that is not a new permit.

Transfer means any sale, lease, lease assignment, or other arrangement by contract or otherwise whereby a permittee allows another person on a temporary or permanent basis to make use of one or more permits that are held by the permittee except an arrangement in the nature excepted in subsection (b).

(b) The terms of this section do not apply to a license, lease, or subcontractor arrangement in conformity with section 46-17 of this Code between a permittee and an individual driver-operator that allows the driver-operator to operate a taxicab under one of the permittee's permits, provided that:

- (1) The permittee remains fully responsible to the city for the actions of the driver-operator as provided by this article;
- (2) The arrangement does not convey any right to purchase or acquire the permit or option to do so;
- (3) The arrangement provides by its terms that it may not be used in any manner as collateral or as a guarantee to support any loan or extension of credit.

(c) A permit may only be transferred to:

- (1) A person who is an existing permittee; or
- (2) A person who would be qualified to obtain a permit as a new entrant applicant under this division.

(d) Any transfer to a person who is not an existing permittee shall be subject to an application to be filed in the same manner as under section 46-65 of this Code for a permit application and shall only be allowed to the extent that the applicant is determined to be qualified thereunder. The director may authorize the transfer on a temporary basis pending the completion of the processing of the application, subject to the same provisions set forth in section 46-71 of this Code.

(e) Except as provided in this subsection, a new permit may not be transferred in any manner or by any means, whether at law, by contract or otherwise, and may only be held by the person with the same principals named as the applicant in the application filed under section 46-65 of this Code. Any alienation of a new permit or use of any taxicab operated thereunder other than in the business owned and operated by the lawful holder of the new permit shall render the permit void.

A new permit shall constitute a privilege to which no property interests or rights of any kind or character shall appertain. However, in the case of the death, disability, or unavailability of any new permittee or principal thereof or for other good cause, the city council may, by motion, upon request duly filed with the city secretary, authorize the reassignment of the new permit to a spouse, child, or other close relative of the new permittee who will carry on the business. The proposed transfer shall be first referred by

No permittee shall suffer or permit the driving of any school vehicle while in service for the transportation of any student by a person not designated as a licensee on the application. It shall also be the duty of each permittee to ensure that no licensee continues to operate any school vehicle in the event that the licensee's state certificate expires without renewal or is revoked or suspended by the state.

(d) In the event that the permit is approved, issuance shall be subject to compliance with this article, including, but not limited to, payment of any required fees, and submission of proof of insurance.

Sec. 46-458. Insurance requirements.

(a) Notwithstanding any other provision of this article, no permit shall become effective nor shall any mobile dispatch service provide services until the mobile dispatch service for which the permit is granted has filed with the director the requisite proof of insurance executed by an insurance company duly and legally authorized to do business in this state insuring the general public against any loss or damage that may result to any person or property from the operation of the vehicles covered by this permit. (c) The insurance shall be available to cover claims regardless of whether the driver maintains insurance adequate to cover any portion of the claim.

(d) The insurance may be in excess of the driver's automobile liability insurance.

(e) A mobile dispatch service's commercial automobile liability insurance shall provide coverage for incidents involving vehicles and drivers while providing vehicle for hire transportation services provided through the use of a mobile dispatch service.

(f) The insurance shall be for the protection of the passengers of vehicle for hire transportation services provided through the use of a mobile dispatch service, as well as for the general public, but shall not be required to cover personal injuries sustained by the drivers. The required insurance shall name the city as an additional insured. The policies issued under this section shall contain a provision for a continuing liability thereon up to the full amount thereof, notwithstanding any recovery thereon, and a provision requiring that 30 days written notice shall be given the city before cancellation of the policy is effective.

(g) If any insurer desires to be released from any insurance policy filed under this section, the mobile dispatch service must give written notice to the director at least 30 days before release from liability occurs. The director shall thereupon give written notice to the mobile dispatch service and demand that such mobile dispatch service furnish evidence of new insurance obtained before the expiration of the policy.

(h) If any policy is cancelled or expires and no new policy is filed by the mobile dispatch service before the cancellation or expiration of the original insurance, the permit shall automatically be suspended, and the mobile dispatch service shall discontinue the operation of the affected vehicles within the city. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the permit shall automatically terminate.

Sec. 46-460. Permit amendment.

(a) A permit is specific to the permittee to whom it is issued and may not be transferred or otherwise assigned. Any change of ownership, partnership interests, corporate officer or director as shown on the permit application shall render a permit void. The director shall promulgate procedures for the processing of amendments and may suspend the permit pending the completion of the processing if any additional person who has acquired an interest in the business is determined to have been convicted of an offense listed in section 1-10(c) of this Code. The fee for filing an application amendment is stated for this provision in the city fee schedule.

(b) Each permit is nonexclusive, and no limits or restrictions shall exist upon the number of qualified vehicles for hire that may provide vehicle for hire transportation services through a mobile dispatch service provided that each must be operated pursuant to a permit and in accordance with all applicable requirements of this article.
