<b>PRIMARY USER</b>	Houston Public Works

# DATA CENTER RELOCATION PROJECT

CURRENT DATA CENTER	NEW DATA CENTER
servers & storage at end of life	commercial collocation facility is state of the market – supports resiliency
equipment from multiple vendors	leverages HITS network investments supporting other departments
complex	simplifies operations through Cisco single vendor approach
facility in need of improvements	cost savings by leveraging city discounts
location does not support resiliency	

# \$2M COST SAVINGS

# NEXT STEP

---

**council action in May to procure Cisco equipment via cooperative purchasing agreement**
