ELEVATE UP

UNLOCK YOUR SECTION 3 CERTIFICATION AND UNLEASH OPPORTUNITIES IN FEDERALLY FUNDED PROJECTS

Introducing the innovative "Mobile" unit, designed to certify subcontractors and laborers involved in active and upcoming federally funded COH projects.

Equipped with digital Section 3 Worker applications, our "Mobile" unit is ready to provide one-on-one technical assistance, addressing any questions or concerns you may have.

Are you ready to join forces with us? Extend an invitation to our team to be a part of your community event, job fair, or any other gathering. By obtaining certification, individuals become eligible for exciting gift card drawings.

The Contract Compliance Team is actively seeking individuals and workers who are eager to expand their work opportunities and contribute to building a better future..

We are more than willing to visit your office or onsite project to certify your laborers and subcontractors right on the premises. Our aim is to collaborate with General and Prime contractors, Subcontractors, Property Managers, Owners, Developers, Laborers, and the General Public, fostering a strong network of professionals dedicated to success.
